

LWCF Survey Boundary Maps Checklist

The LWCF boundary map are to include the following:

- Official park/site name and address
- LWCF number
- Total acreage of the area within the LWCF boundary and subject to the provisions of the LWCF
- North Arrow
- Legal detail identifying the lands that is subject to the provisions of the LWCF Act. The following methods of identification are acceptable:
 - Metes and bounds/surveys
 - Deed references
 - Adjoining ownerships
 - Adjoining easements and rights-of-way
 - Public streets
 - Adjoining water bodies or other natural landmarks
 - Where one or more of the above methods are not readily suited for identifying the area, measurements from permanent locators may be used. A formal survey is not required.

The LWCF boundary areas are subject to the provision of the LWCF Act to encompass a viable public outdoor recreation area that is capable of being self-supporting without reliance upon adjoining or additional areas not identified in the scope of the project (such as for access, utilities, park support facilities, etc.). All areas must be consistent with the intent of the LWCF Act, the Program expectation is the entirety of the park or recreation area being acquired, developed, or expanded will be included within the LWCF boundary area.
