Return to the Vacant Position Listing
Applicant Information

- Vacancies are open to all qualified applicants. Applicants will be screened for the minimum qualifications listed for each job vacancy. Preference will be given to applicants who, in addition to meeting the minimum qualifications, possess one or more of the listed preferred qualifications, when applicable.

- Employees will be given the opportunity to compete within their division or within central office to transfer to or voluntary demote to a vacant position prior to consideration of applicants from outside of the agency.

- Applications are accepted for announced jobs only.

- To apply for an announced job vacancy, applicants must submit a Department of Natural Resources (DNR) Application for Employment to the individual address listed with each job posting. It is important that applications be sent directly to the contact person and/or locations listed. Applications sent to another location may not be forwarded and may result in applications not being considered.

- Applicants must submit one application for each position being applied for.

- A .pdf version and a Word version of the DNR Application for Employment can be found by visiting the Careers page of the DNR website at https://gadnr.org/careers.

- If submitting a résumé, please attach the résumé with a completed DNR Application for Employment.

- Please be sure to include the following information on your application; Job Title and Position Number.

- If the minimum qualifications for a job require a college education and you have obtained a degree from a college or university outside the USA, you are required to submit an International Education Evaluation Letter showing your degree is equivalent to one obtained at a college or university in the USA. International Educational Evaluations are accepted from the National Association of Credential Evaluation Services (www.naces.org/members.htm) or the Association of International Credentials Evaluators (www.aice-eval.org).

- Your application must be postmarked no later than the application deadline date noted on the specific job posting. Please note that deadlines will differ by job postings.

- Any offer of full time and part time employment by DNR is conditional upon a background check that is appropriate for the job functions and business necessity. If related criminal records are revealed in the process, the applicant will not be automatically disqualified.

- Information found on publicly posted social media accounts may be examined.

- Current State of Georgia employees transferring to a DNR position, on the same pay grade, will transfer at their existing pay. Current State of Georgia employees transferring to a DNR position, on a higher pay grade, will typically receive a 5% promotion, or go to the job minimum, whichever is greater. Current State of Georgia employees transferring to a DNR position, on a lower pay grade, will typically receive a demotion with a loss in pay.

- All positions listed in this announcement are in the Unclassified Service and will be filled as unclassified positions.

- All qualified applicants will be considered. Hiring locations will contact applicants regarding interviews but due to the volume of applications received not all applicants will be contacted or receive an interview.

- If you need this Vacancy Announcement in an alternate format, please contact the DNR Office of Human Resources at 404.656.7560.

- DNR is a registered participant in the federal work authorization program commonly known as E-Verify. DNR uses this program to verify employment eligibility of individuals hired on or after July 1, 2007. DNR’s E-Verify ID # is 45119, Authorized July 1, 2007.

- The Georgia Department of Natural Resources is an Equal Opportunity Employer.

Additional information on the Georgia Department of Natural Resources Operating Divisions can be located by visiting the below website addresses:

JOB DESCRIPTION
We are seeking a Botanist with strong field taxonomy skills to fill a vacant Wildlife Biologist 2 position in the Wildlife Conservation Section. The Wildlife Biologist 2 will work on a team with other botanists to assess the conservation status of Georgia’s priority rare plant species and natural communities. Responsibilities include design and implementation of surveys, development and management of rare plant information archives and databases, and status assessment and conservation planning for plant species identified in Georgia’s State Wildlife Action Plan. Effective written and verbal communication are required for coordinating safeguarding efforts with the Georgia Plant Conservation Alliance, receiving and managing rare plant and natural community data from individuals and partners, and providing reports and consultation on rare plant conservation issues to agency partners. The Wildlife Biologist 2 will also assist with outreach and technical support to landowners, individuals, and conservation partners; with review of projects that may impact rare plants and habitats; and with land management planning. They will participate in rare plant habitat restoration using prescribed fire and invasive species management. Strong workplace organizational skills will be required to meet the demand for information on Georgia’s diverse rare plants and habitats.

MINIMUM QUALIFICATIONS
Master’s degree in Biology or a related field from an accredited college or university.
OR
Bachelor's degree in Biology or a related field from an accredited college or university
AND
One year of related experience.
OR
One year of experience required at the lower level Wildlife Biologist 1, (NRPO60) or position equivalent.

PREFERRED QUALIFICATIONS
Preference may be given to applicants with:
• Demonstrated plant taxonomy skills and familiarity with the flora and habitats of the Southeastern U.S
• Proficiency in surveys and monitoring for rare plants and natural communities
• Coursework or experience in principals of plant conservation ecology, including conservation genetics, pollination ecology, population ecology, and disturbance ecology
• Experience with management of large amounts of data, including Natural Heritage inventory data in the NatureServe Biotics database and GIS data
• Experience and training with rare plant and habitat conservation techniques including prescribed fire, herbicide application, and plant safeguarding
• Demonstrated ability to work collaboratively with colleagues and partners to complete projects on time
