

Trees

Question:

What has no fingers, but lots of rings?

Answer: A tree!

One ring on a tree equals **one** year of its life.

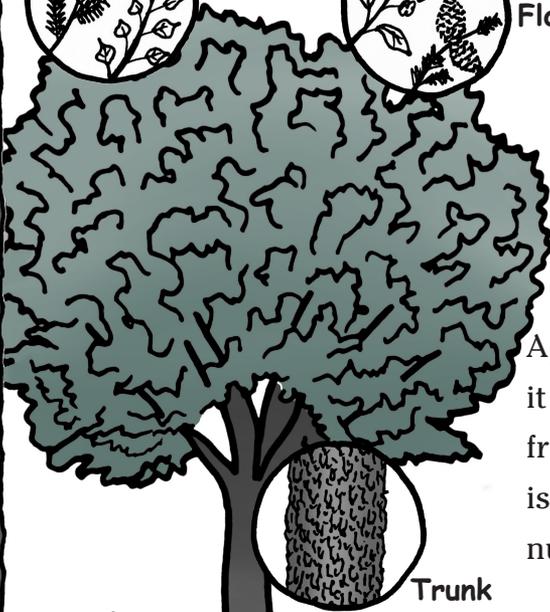

Draw the number of candles on this tree's birthday cake.

Leaves/
Needles

Flowers

Parts of the Tree

Leaves
Roots
Trunk
Flowers

A tree has four things to help it grow. _____ get water from below. The trunk is the highway that moves nutrients down and up.

_____ grow into pods, cones and nuts.

_____ soak up light from the sun.

Now go explore _____ and have fun!

Roots

Trunk

Since most roots grow underground, you'd never know the root system is as large (or LARGER) than the canopy. Now look at the tree canopies at this park and imagine... WHOA!
